Why work with us?

Award Winning

Our work in The Midlands, has gained us some prestigious awards. Most of them have come from our film-making and storytelling abilities in various film festivals. In 2020 we won "The Foodie" award which over-took Jamie Olivers 2020 advert which we are very proud of.

One of our ads was shared by LADBible and Student problems which gained us over 1 Million views!

Creative

We collaborate with our clients from concept through creation to understand their audience, and develop video campaigns that resonate. A dynamic crew with bags of resourcefulness allow us to deliver high production values while remaining cost effective. Whether it's live action, animation or anything in between; All our videos are built on a foundation of art, value and results.

Convenient

The most common question is why? Why do we need video or social media for our business?

- 91% of marketers feel the pandemic has made video more important for brands.*
- 93% of marketers who use video say that it's an important part of their marketing strategy*
- 86% of businesses use video as a marketing tool*

The next question is why shall we out-source?

*The best thing about out sourcing I have found is the convenience. Why do it yourself
When you can hire someone to do it? A group of talented individuals
that not only research the status quo daily but have spent
almost a decade learning their craft.*

Our Process

PRE-PRODUCTION

*Ideas, Ideas, Ideas
Don't worry about all the boring stuff! Let us
take care of that! Paperwork, storyboards,
shot lists - that's our forte!*

PRODUCTION

*3...2...1.. and ACTION!
Now the talent, crew, location, script are
ready and waiting! Let's whip the gear out
get this project made.*
